Hi Laurie, That sounds good. I will actually not be here on June 5, my Ex. 6 Personal Privacy (PP) that day! But your agenda sounds good, and we'll make sure we have folks on the light-duty side available for the discussion.

Best,  
Robin

Robin and Michael,  
I saw that Brian Nelson put something on the calendar for us on June 5 at 1:00pm. Look forward to discussing generally any developments in the SAFE rule and start discussions on what a post-2026 vehicle GHG emission program may look like. I'm currently developing an agenda – but it may mostly consist of questions for EPA staff. I will definitely plan on being there, I'm not sure yet how many of my members will be there but will let you know.

Best,  
Laurie
